Automate your lights

for easy control and comfort

Add a Philips Hue white bulb to your system and enhance your home with warm white lighting that you can dim and control remotely. Automate your lights to make it seem like you're home when you're not or set timers.

Easy control and comfort

- Smart control, home and away
- Set timers for your convenience
- Installation free dimming
- Control it your way
- Requires a Philips Hue bridge
- Wirelessly controllable LED bulb
- Dimmable only with Philips Hue compatible devices

PHILIPS

Preliminary

Single bulb GU10
1 x GU10 bulb Warm white light (2700K)

Přednosti

Smart control, home and away

With the Philips Hue iOS and Android apps you can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left your home, and switch them on if you are working late.

Timers for your convenience

Philips Hue can make it seem like you're home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on.

Installation free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

Control it your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple Homekit and Google Home to allow you to control your lights with your voice.

8718699605513

Requires a Philips Hue bridge

Connect your Philips Hue lights with the bridge to control your lights from your smart phone or tablet via the Philips Hue app.

Wirelessly controllable LED

This LED bulb is wirelessly controllable if you connect it to the Philips Hue bridge for smart control or to the Philips Hue dimmer switch.

Compatible device required

This product is only dimmable if connected to the Philips Hue bridge or to a Philips Hue compatible device

Single bulb GU10
1 x GU10 bulb Warm white light (2700K)
